ABOUT ME

portfolioakshay.in

Currently pursuing MCA, I develop websites and software tailored to client needs and enjoy turning ideas into polished, working products. Focused on continuously learning new technologies to keep improving my skills.

SKILLS

Programming Languages: Python, HTML, CSS, JavaScript, SQL

Frameworks & Libraries: FastAPI, React, Tailwind CSS, Node.js

Tools: Git, GitHub, Docker, Vercel, Render

AI Tools: Antigravity, Claude, ChatGPT, Gemini, Kimi, Cursor

PROJECTS

Multi-Agent Automation Agent | Tech: Python, WebSockets, AI APIs <https://github.com/ra901625072-boop/Jarvis-Voice-Assistant>
Voice- and text-mode automation agent that completes complex goals via specialized sub-agents (coding, research, planning).

Pali CBDC Portal | Tech: Python, FastAPI, SQL <https://pali-omega.vercel.app/>
Web app tracking CBDC beneficiary data for Pali; users check beneficiary status while Talati admins view analytics, details, and reports.

e-Grossary Mart | Tech: Python, FastAPI, SQL <https://glossary-mart.onrender.com/>
E-commerce platform for a client to manage supply, stock, and suppliers, with a dashboard for revenue and business metrics.

FamDoc (Family Document Manager) | Tech: Python, Cloud Storage, SQL <https://famdoc-ten.vercel.app/>
Google Drive-style app where family members join via a shared code so uploaded documents become visible/downloadable to the whole family.

Resume Maker | Tech: Python, HTML/CSS/JS, SQL <https://resume-maker-zhcq.onrender.com/>
Web app for students to enter personal details, choose from professional templates, and download a finished resume.

EXPERIENCE

Internship — Wixasis Pvt. Ltd., Mehsana (3 Months)
• Gained hands-on experience in real-world development practices during the internship period.

Freelance Work
• Delivered 2 client projects — Pali CBDC Portal and e-Grossary Mart — gaining practical experience with client requirements.

Personal Projects
• Independently built Resume Maker and a multi-agent automation system to learn new technologies and practices.
